

MAKE LIFE DELICIOUS

Snowmen Ideas:

Creamy eggnog -- the adult or child-friendly version -- takes center stage in this Frosty vessel made from a large rose bowl. For a temporary design, paint the inside of the glass with melted orange and black chocolate coating. Or, to use the bowl and glasses next year, use glass paint from the crafts store to add the faces to the outside of the glass.

A glass of milk takes on new deliciousness with doughnut-hole snowman heads. Outfit powdered doughnut holes with eyes and a nose made of edible food clay. Pierce a hole through the center of the doughnut using a skewer and fit in a straw. Make a miniature scarf for the glass from orange yarn and trim it with scrapbook brads in the shape of snowflakes.

Fill a large cake plate with white-frosted cupcakes, and then fill in details of a snowman face with more orange and black frosting. Sprinkle the cupcakes with white cake sparkles for a snow-crystal finish.

ENJOY,
