

### Pumpkin Cake

#### Ingredients:

- 1 Pkg. (2-layer) cake mix, any flavor
- 1 Can white icing (any brand is fine)
- Few drops each: green, red and yellow food coloring
- 1 Ice Cream Cone

\*

#### Directions:

Prepare cake batter and bake in a 12-cup fluted tube pan as directed on package. Cool in pan 20 min. Invert cake onto wire rack; remove pan. Cool cake completely. Meanwhile, stir can of icing until smooth. Remove 1/2 cup of the frosting; place in small bowl. Add green food coloring; stir until well blended. Spread half of the green frosting onto outside of ice cream cone; set aside. Cover and reserve remaining green frosting for later use. Add red and yellow food colorings to remaining white frosting to tint it orange. Spread onto cake to resemble pumpkin. Invert ice cream cone in hole in top of cake for the pumpkin's stem. Place the remaining green frosting in a zip-loc bag. Snip off a tiny piece of the corner tip. Pipe the reserved green frosting in vertical lines down side of cake.
